My favourite teacher is Miss Yeung. She is a good teacher. She comes from Hong Kong. She teaches our class English. She likes to eat chicken wings, ice-cream, chocolate and sweets. She is a kind teacher and a kind mother. She has a son and a daughter. She has long hair, big eyes, a small nose and small ears. She always wears glasses.

I like her because she is a kind and good teacher. During her lessons, I will be a good student because I want to learn from her. She is always happy with me. I like her happy face because I think she is beautiful and cute. She seldom gets angry with me or my classmates so we do not feel scared. I like her very much so I hope next year she will also be my English teacher as well as my General Studies teacher.

She is also my favourite English teacher. Some of my other classmates also like her.

My best friend is Angel Tang. She is eleven years old. She has small eyes, short hair, a round face, a big mouth, a small nose and long ears. She wears glasses too! She likes rabbits very much. She likes playing the piano and she plays it very well. At the weekends, we will play badminton together. After that, we will go home and do our homework.

Her favourite subject is English, which is also my favourite subject. As a result, we like reading English books too!

I work in a big castle. My job is to see that no comes in and out of a small door of a prison. For a year, nobody has come in or out of that door. However one day, I heard a soft noise coming from the other side of the door. Then yesterday, the noise got louder.

At that moment, I was sleeping. Then, I heard the loud noise. So, I took my AK-47 gun and went inside. I was very scared that there would be a monster inside. It could attack me with water. I could not swim. Also, I saw a pair of eyes that were scary. At first, I thought that it was a dragon!

Suddenly, I could not see anything! It was dark. I still wanted to look at the dragon so I ran and ran deeper inside. I saw it, it looked like a dragon, but it was a monster. It didn't move so I thought I was not in danger.

I just felt cold and dirty. Then, I also saw some smoke. Where was the smoke from? Was it from the monster? I started to feel scared. So, I went out and called my friends Tim and Tom to help me kill the monster.

After that, we all went inside the prison. We saw the monster. It was very scary; it had three heads and ten eyes. So, we used the AK-47 to kill it. However, we could not win.

So, we also took a sword and a shield to kill it, but we lost. So, I took heavy armour and a heavy helmet. I took the heaviest and the most powerful sword to kill it. Tim and Tom brought a lot of bombs. Finally, we killed the monster. Later we also found some sparkly diamonds and an ugly baby dragon. Years later, the ugly baby dragon grew up, it was called Lucky. It could use its fire and thunder to attack enemies.

At the end after we killed the monster, we had a lot of money. So, we lived in the castle happily.

I went to the door to see what was behind the door. When I went to the door, I saw a red light and some soldiers. I took some chairs, lights and vases to hit them. I opened the door. I went inside to see what had happened. Oh! It was a very ugly woman! I asked her, "Who are you?" But that ugly woman didn't answer me. So I was very angry. It was dark and dirty. Then there were red lights flashing inside. Suddenly, the red lights stopped flashing. Then I felt scared because I could not see anything. I felt frightened too because I thought the ugly woman wanted to eat me.

I asked the ugly woman who she was. I told her she was very ugly too. The ugly woman's name was Marco. She got mad at me and wanted to eat me. So I called the police and told them that there was an ugly woman named Marco and that she wanted to eat me. The police said, "Ok, I will come with my other colleagues to help you". The police came to the castle. The ugly woman said, "I don't want to eat her". The police said, "Marco, if you eat her, I will take you to prison".

In the end, Marco was happy because she didn't need to go to prison.

When I opened the door, it was very dirty and dark inside. It was also very cold. So I brought some thick clothes to wear when I went inside.

I felt very surprised because there was no one inside. It was just a big foot inside. I tried to take out the big foot but it was very heavy. So I called my friend to help carry the big foot with me.

Oh no! The big foot was from a monster. So I took the big foot back to the monster but he was angry with us. So we fought with the monster.

Finally, the monster lost. We were the winners. Then we went back home.

I was so curious so I walked to the prison door. It was because I heard some strange noises. I opened the door and I saw some blood on the ground outside the prison door.

I walked inside the door and I saw something sparkle. It was moving slowly. I couldn't see what it was clearly because it was too dark. When I walked deeper inside, I felt cold and it was dirty. I felt so horrible and frightened.

Then I saw a huge shadow moving so I took a wood to distract the shadow. It followed the wood and I could clearly see that it was a polar bear. It was large and white.

I wanted to kill the polar bear but suddenly I saw a girl. She was injured. I was afraid that it would hurt us. I was so nervous but I wanted to save the girl. I walked near it carefully. Suddenly, it turned around and saw me. I was scared so I took my sword and killed it quickly.

At last, I saved the girl and we left there immediately. We were safe.

I said, "Yes, I will help you find your mother and father."

Two hours later, we found the monster's mother. We felt happy because the monster's baby could find its mother. Finally, the monsters took me to their home. Oh! Suddenly the monsters changed into fairies. They thought I was very kind so they gave me a lot of money. Then because it was late, they gave me many buns to eat. I felt very happy because the buns were very yummy.

Suddenly a big dragon flew in from the sky when we came out. It looked like it had been waiting for us to come out. It was big and tall. I couldn't catch it. Then my friend and I ran away with the big bag. But the dragon flew so fast and it caught us. We used our swords to fight with the dragon. Finally, the dragon was too hurt and too weak. We killed it easily.

In the end, we ran out of the castle and we were very rich.

# MTR or Bus?

## The Mass Transport Railway (MTR)

### Title: Why I prefer the MTR to the bus

By: Mary Zhang (5A)

Hong Kong has an excellent transport system so travelling around is easy. We can travel Hong Kong by taxi, mini-bus, ferry, Light Railway Transit (LRT) and MTR. However, the two most popular public transports in Hong Kong are the MTR and the bus. I think the MTR is better because it can travel very far and is comfortable.

For me, the MTR is one of the best ways to travel around in Hong Kong. Furthermore, many people will use the MTR every day. Therefore, it is an important transport for us. The reasons why I enjoy the MTR are because it is relaxing, cleaner and it also has more seats. Furthermore, there are helpful staff who are there to help. The MTR is also on time and comfortable too.

I don't like taking the bus because it can be dirty. It sometimes smells nasty and is smaller than the MTR. Therefore, I don't like taking the bus very much.

In conclusion, I think the MTR is better than the bus.

Hong Kong has an excellent transport system so travelling around is easy. We can travel by taxi, minibus, ferry, Light Railway Transit and tram. However, the two most popular public transports in Hong Kong are the bus and the MTR. I think the MTR is better because I find it more comfortable for travelling far away and more convenient. Sometimes if we miss the MTR, we don't have to wait too long for the next train because it follows a fixed timetable and it is normally on time.

For me, the MTR is one of the best ways to travel around in Hong Kong. Many people think that it is a very important public transport because they always travel on it to go to work and some people use it to go to school. I also think the staff in the MTR station are very helpful and polite. I feel that it is cleaner, airy and spacious too. The thing I like the most is that on the MTR less people will eat and drink on it.

The bus is also another important public transport but it is slower than the MTR. It has fewer seats too. Sometimes, I think the bus is very smelly and dirty because many people throw rubbish on the bus. In the MTR, few people do that so it is cleaner than a bus. If we miss the bus, we usually will need to wait about thirty minutes for the next bus. This is especially common in the early mornings as we may need to wait for more than one hour because many people go to work during these times. This is inconvenient.

In conclusion, I think the MTR is better than the bus.

In Hong Kong, there are a lot of different transports that we can travel on. For example, the bus, taxi, MRT, minibus, ferry and plane. The transport I like the most is the MTR because at the MTR stations, there are many places to eat and to shop. When I travel by MTR, it is very fast and quick. The MTR is clean, cool and the seats are very comfortable. The MTR is easy to travel on because everywhere we go, we can easily find MTR stations.

I do not like traveling on the bus very much because the bus is slower than the MTR and the bus is not as clean as the MTR. When I travel by bus, I also get bus sick on the bus. At the bus stations, I can't find their timetable so easily. However, at the MTR stations, I can easily find their timetables and read their maps.

I do not like travelling on the bus. I think the bus is not so cool. Therefore, the MTR is better than the bus.

In Hong Kong, we can travel around Hong Kong by taxi, mini-bus, ferry, LRT and bus. However, the two most popular public transports in Hong Kong are the bus and the MTR. I like the MTR more than the bus because it is cleaner, faster, more convenient and spacious compared to the bus.

For me, the MTR is one of the fastest ways to travel around in HK. It is relaxing, clean, cheap, airy, fast, comfortable and spacious. So, I like the MTR because it is convenient. I can travel far easily. There are more doors to exit and enter than the bus.

I think travelling on bus is not very good because it cannot sit as many people as the bus. In addition, the seats are sometimes dirty because people leave their rubbish in the bus. Furthermore, the waiting time for the bus is longer than the MTR.

In conclusion, I think the MTR is better than the bus.

For me, the MTR is one of the greatest ways to travel around in HK. It is an important public transport because many people in HK travel on the MTR every day. There are many reasons why I like the MTR more. Firstly, the staff are helpful and kind. If you have any questions, they will answer you politely. Next, the MTR follows a fixed timetable so it is easy to plan your trips. In addition, the MTR is cleaner than the bus because the cleaners clean the railway carriages regularly. Finally, the MTR is bigger than the bus so it has more seats.

I don't like to travel on the bus because it makes me feel uncomfortable. The bus can be dirty because some people litter in the bus. I also think the bus is slower than the MTR. If you miss the bus, you will have to wait a long time for the next bus.

In conclusion, I think the MTR is better than the bus.

Hong Kong has an excellent transport system so travelling around Hong Kong is easy. Some of the ways we can travel around Hong Kong are by taxi, mini bus, ferry, Light Railway Transit (LRT) and Mass Transit Railway (MTR). I think the MTR is more convenient to travel around than the bus because it is faster than the bus.

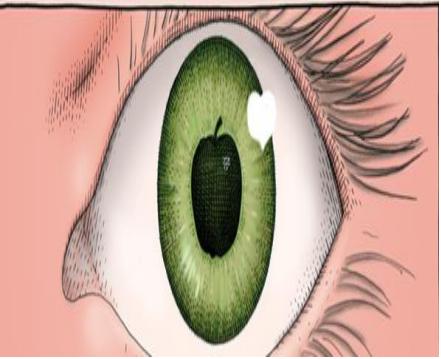

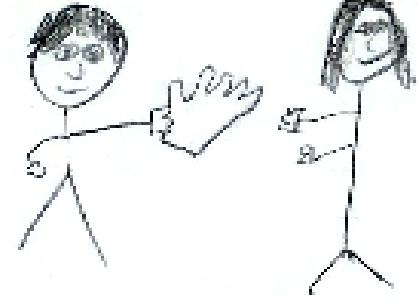

For me, the MTR is an affordable way to travel around in Hong Kong. It is an important public transport because a lot of people use the MTR to go everywhere. There are many reasons why I prefer the MTR to the bus. Firstly, at the MTR stations there are a lot of staff to help you when you need help. Another reason is the MTR is comfortable, fast and on time. Furthermore, the MTR is airy and it can travel to a lot of places. The MTR is the most convenient way to travel especially if you are running late because of the short waiting time. Thirdly, the MTR is cleaner than the bus because the bus is normally smelly. Therefore, I feel relaxed when I travel around Hong Kong by MTR.

However, the MTR also has its disadvantages. For example, at seven o'clock in the morning, it is too crowded because many people will be using the MTR at that time. I do not like this. Sometimes, the MTR can be smelly too especially when someone sweats and it is too crowded. Therefore, during busy times, taking another MTR train can be troublesome because there are too many people taking the MTR.

Overall, I still think the MTR is better than the bus.
